## ABOUT ME

---

Self-motivated and versatile full-stack web developer with a strong interest in AI-powered applications and computer vision. Experienced in building scalable and efficient solutions from scratch, with hands-on project exposure in real-time monitoring systems and AI-integrated applications. Committed to continuous upskilling, clean coding, and developing software that solves practical, real-world problems.

## TECHNICAL SKILLS

---

**Languages:** JavaScript, Python, HTML, CSS, SQL

**Frameworks & Libraries:** React.js, Node.js, Express, TailwindCSS, MediaPipe, OpenCV

**Tools & Platforms:** Git, VS Code, Netlify, Render, Firebase

**Concepts:** REST API Development, MVC Architecture, Responsive UI Design, Agile Development

## PROJECTS

---

**ExamGuard** – Python, MediaPipe, YOLOv5, OpenCV

- Developed a real-time AI-powered exam monitoring system to detect potential cheating via CCTV.
- Integrated facial, gaze, and object detection using MediaPipe and YOLOv5.
- Designed a reporting module to log incidents into a database with timestamps.
- Built a desktop GUI dashboard for live monitoring by invigilators.

## EXPERIENCE

---

**Freelance Web Developer** | 2025– Present

- Delivered web applications for multiple clients with optimized, scalable codebases.
- Ensured responsive and cross-device compatible UI/UX for client applications.
- Managed project life cycles – from requirement analysis to deployment and maintenance.

## EDUCATION

---

**ME(A)RN STACK DEVELOPMENT**  
luminartechnolab

2025–Present  
Kochi, Kerala

**BTECH (Computer Science and Engineering)**  
Saintgits college of Engineering

2021–2025  
Kottayam, Kerala
